EXPERIENCE & PROJECTS

Personal Portfolio

Developed a portfolio website showcasing my frontend skills, including animations and contact form integration. Technologies used: React, Javascript, Sanity, SCSS

Ecommerce Admin

A full-stack app which allows logged in users to create and manage stores which they can showcase their products. A user can have multiple stores and uses this platform to add, delete or update the products in the stores. Technologies used: NextJS, Typescript, Prisma, PostgreSQL, Shadcn, Clerk, Cloudinary

Ecommerce Store

An app that fetches and displays the stores and products from the Ecommerce Admin. Changes made to the Ecommerce Admin will reflect here immediately. A user can proceed to place selected items in the cart where they will checkout after making a payment with M-pesa. Technologies used: NextJS, Typescript,
